

CLEAR-OFF

PLASTIC SAFE TAR & LABEL REMOVER

SAFETY CLEANER FOR EFFECTIVE REMOVAL OF NEW VEHICLE STICKERS, BODY PANEL LABELS, STONECHIP OVERSPRAY.

Tar Spots:

The ideal totally safe solution for removing road tar spatter from plastic and paintwork eg. front plastic light clusters etc.

Safe on Plastics:

New generation cleaner for use on all exterior and interior plastics and paint surfaces to efficiently remove new car labels/stickers. Effective for removal of white polish staining on new car plastics.

Bodyshop Problem Solver:

Safely removes factory labels on new OEM panels without damaging primer. Removes stonechip overspray.

Automotive Plastic Components:

Increasing use of plastic composites incorporating a higher percentage of recycled materials and the increasing use of acrylic components has created the demand for a label remover which will NOT damage or stain these substrates.

New Car Transit/Protective Plastic Film:

Removes adhesive residues left on paintwork.

MS Sealant Cleaner : Clear Off is the ideal cleaner for smoothing out the profile of freshly applied sealant.

Good Working Time/Easy to Use:

Unique blend of solvents gives user good working time – will not dry too quickly

Directions:

Apply with soft absorbent cloth or trigger. Allow solvent a few moments to penetrate the label then peel away. Remove any remaining adhesive residues. Repeat application if necessary.

Typical Specification:

Composition : Aliphatic hydrocarbon solvent blend.
 Appearance : Clear liquid
 Colour : Water white
 S.G. : 0.77
 Odour : Mild
 F.P. : >40°C
 Shelf Life : Minimum 4 years in unopened containers at ambient temperature.
 Packaging : 5L metal containers.

Clear-Off is used and approved by BMW UK Ltd. in the P.D.I. preparation of all new vehicles at their Import Centre (Thorne, South Yorkshire).
