

CUT 'N' WAX

BRILLIANT TRIPLE ACTION MICRO-ABRASIVE CAR POLISH FOR MACHINE USE

One-Step Restoration with advanced micro-abrasives : A unique State-of-the Art triple action renovating polish for use on all paint systems including cellulose, single component and 2-pack acrylic clear-coats, MS/HS, Ceramic Clear Coats, UV clear coats, waterborne clear coats.

Dramatic, Fast & Easy: Cut 'n' Wax combines rapid cleaning, fine scratch removal [P4000], with colour restoration and a deep wax gloss shine, all in one-step!

Low Chalk: Makes polishing dark colours easy.

Water Compatible: Cut 'n' Wax is unaffected by hidden water-trim residues.

Bodyshop Approved: Contains no volatile silicones.

Specially Developed: For restoring, polishing and protecting of cars, coaches, motorbikes, trucks, aircraft, boats, caravans etc.

Directions: Shake well before use.

Machine Use:

Recommended machine speed of 1100RPM to remove oxidised/old paint and fine scratch removal leaving a superb gloss shine.

Apply to paint surface using Concept Orange Foam mop.

Apply medium pressure allow polishing action to take place by letting the pad work freely without pressure.

NB. After machining up a 4 panel area the foam pad must be cleaned out thoroughly prior to further applications; this prevents wax build-up and re-deposition, enabling the abrasive system to work at its optimum efficiency.

Finally lightly buff to remove any surface residues left with a CAP-4 microfibre polishing cloth

Typical Specification:

Composition : An emulsified blend of waxes, non- volatile silicones, micro polishing aids, solvents, perfume in water.

Appearance : White cream

pH : 8.5

Viscosity : Medium

Perfume : Waxy

Stability : Protect from freezing. Store at ambient temperature.

Shelf Life : 2 Years minimum in ambient temperature. Protect from frost

Packaging : 1kg

Part No. # 472
