

GLASS POLISH

... THE FINAL PERFECTION

Trade Formula:

For the perfect streak-free cleaning and brilliant reflective polishing of all vehicle glass windscreens and windows.

Effective 1st time results:

Unlike conventional liquid Glass Cleaners, Concept Glass Polish, efficiently removes heavy build-up deposits of nicotine film in one application.

Heavy insect spatter.

Use with superfine wire wool, to quickly and safely remove the most stubborn sun-baked dried insect deposits.

Fast – Easy- Trouble Free:

Quick and easy to use, a unique low chalk formula, so no marking of rubber, no heavy chalk dust spoiling just polished paintwork.

Perfect Clarity:

Treated glass surfaces are completely free from any haze or rainbow smears.

P.D.I. Approved:

Removes residues of solvent based new car delivery wax from vehicle windows.

Directions:

Shake before use.

Apply sparingly with a dry cloth then polish off with dry cloth. **IMPORTANT:** take care to avoid polish coming into contact with plastic surfaces. Do not use on plastic windows.
